

Results – Response Rate Tracker

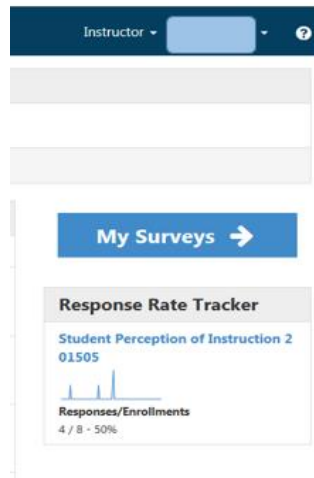

Response Rate Tracker

Use the **Response Rate Tracker** to view the number of students who have completed the survey as well as the Response Rate percentage. You will not be able to see survey responses.

1. Login to Canvas
2. Access your course
3. Click on the **Instructor SPoI** link from the course navigation column to access the Instructor Dashboard

There are two ways, from your home view (dashboard), to view your project results.

1. Directly from the Dashboard (recommended method)
 - a. The response rate tracker summarizes all course section responses in a graph.

- b. Click the “Student Perception of Instruction 20XXXXX” link to see a list of each course section individually.
2. From the Toolbar
 - a. Click the **Results** tab from the menu
 - b. Select **Response Rate Tracker**
 - c. Choose one of the **Project Name** links. This will show you the response rate for all of your courses for that project.
 - i. You may also download an Excel file of the report by clicking the download icon

and choosing “Courses”.
